**CALL NUMBER:** WA MSS S-2600

**CREATOR:** Palmquist, Peter E. (1936-2003) , collector

**TITLE:** Peter Palmquist collection of women in photography

**DATES:** circa 1840-2017

**PHYSICAL DESCRIPTION:** 337.62 linear feet (520 boxes + 6 broadside folders)

**LANGUAGE:** English

**SUMMARY:** This collection consists of biographical files collected by Peter Palmquist for over thirty thousand women involved in photography and photographic materials that represent the work of nearly two thousand women. Palmquist began the Women in Photography International Archive in 1971 as a systematic study of women photographers in California, which then extended to the American West. By 1994, he broadened the collection to include women involved in photography since its beginning to contemporary times around the world. He included amateur and commercial photographers, studio assistants, retouchers, colorists, photojournalists, and filmmakers, as well as early critics of photography and characters in literary works.

## Administrative Information

---

### Immediate Source of Acquisition

Purchased from Peter E. Palmquist on the Frederick W. and Carrie S. Beinecke Fund for Western Americana, 1999.

Includes two gifts of Penny Brogden, 2011 and 2014.

---

### Conditions Governing Access

The materials are open for research.

Box 386 (audiovisual material): Restricted fragile. Reference copies may be requested. Consult Access Services for further information.

---

### Conditions Governing Use

The Peter Palmquist Collection of Women in Photography is the physical property of the Beinecke Rare Book and Manuscript Library, Yale University. Literary and image rights, including copyright, belong to the photographers and authors or their legal heirs and assigns. For further information, consult the curator of the Yale Collection of Western Americana,.

---

### Preferred Citation

Peter Palmquist Collection of Women in Photography. Yale Collection of Western Americana, Beinecke Rare Book and Manuscript Library.

---

### Processing Information

The biographical information in this finding aid derived mainly from word processing files originally created by Palmquist and his assistants.

The processing archivists occasionally added documentary material to the Biographical Files subseries in Series I to document authoritatively the identity of an individual or their life and work dates and working locations. This usually occurred when the photographer had photographic materials in Series II or when individuals shared the same name. This material consists mostly of printouts from census records or biographical authority databases, such as the Library of Congress Authorities, George Eastman House Photography Database, and the Getty Research Institute Union List of Artist Names.

### Associated Materials

Books and periodicals formerly in the personal library of Peter Palmquist are accessible via the library catalog by searching special collections for the search string: "Palmquist, Peter E., Ownership."

## Peter E. Palmquist (1936-2003)

A photographer, collector, and historian of photography, Peter Eric Palmquist was born in Oakland, California on September 23, 1936. In 1944, he moved with his family to Ferndale, California, and he spent most of his life in Humboldt County. During adolescence, Palmquist trained himself in photography. He served in the United States Army as a photographer from 1955 to 1959, mainly with the Supreme

Headquarters Allied Powers Europe in Paris, France. Palmquist worked briefly as a photographer for the state government of California from 1959-1961. From 1961 until his retirement in 1989, Palmquist worked as a staff photographer for Humboldt State University, Arcata, California, where he also graduated with a Bachelor of Arts degree in Art in 1965.

From 1971 until his death, Palmquist collected textual materials and hundreds of thousands of photographic items documenting the practice and occupation of photography from its beginning through the turn of the twenty-first century. He had particular interests in early California photographers, photographers of the American West, and women photographers.

A self-trained researcher and historian of photography, Palmquist organized more than a hundred exhibitions and wrote more than three hundred articles and a hundred monographs. He was a founding editor of *The Daguerreian Annual*; president of the National Stereoscopic Association.

Peter Palmquist began the Women in Photography International Archive in 1971 as a systematic study of women photographers in California, which then extended to the American West. By 1994, he broadened the collection to include women involved in photography since its beginning to contemporary times around the world. He included amateur and commercial photographers, studio assistants, retouchers, colorists, photojournalists, and filmmakers, as well as early critics of photography and characters in literary works. For the collection, he and his assistants collected biographical and photographic materials that document the work and lives of these individuals.

Palmquist died January 13, 2003, in Oakland.

## Women in Photography International

The collection includes the records of Women in Photography International is an educational nonprofit group founded in 1981 by Thea Litsios, Orah Moore, Mary McNally, and other women photographers in Los Angeles, California. The professional organization serves women photographers, photographic educators, photography students, and gallery owners around the world. It promotes women photographers and their work through programs, exhibitions, juried competitions and publications. The organization donated the bulk of its records to the Women in Photography International Archive maintained by Peter Palmquist in 1991, and supplemented by additional material over the ensuing years.

---

## Scope and Contents

The collection documents Palmquist's efforts to identify, collect, preserve, and disseminate information about women in photography.

The Biographical Files series provide excellent name-based access to information about more than thirty thousand individual women involved in photography. The biographical files allow for broad and deep studies of women in photography. Some files are not extensive. They derive from secondary material collected by Palmquist, as well as biographical profiles, professional vitae, advertising items, exhibition announcements, and reviews provided by photographers and historians of photography. The biographical materials also provides limited information for regional photographers, especially in California and the American West, and temporal studies of women photographers. A database <https://libapp.library.yale.edu/Palmquist> provides individual name access to women with biographical files in this series, as well as any available information regarding their aliases, working locations, life dates, and work dates.

The Photographic Materials series includes photographic images created by more than two thousand individual women photographers. These materials include vintage photographs created by women photographers, with a majority created before 1910, as well as copy photographs created by Palmquist. The majority of the early vintage photography represents the work of studio photographers and amateur photographers. The collection also includes a significant representation of works by art photographers.

The Publication and Exhibition Research series includes research files compiled by Palmquist to support projects on topics related to women photographers, including his book, *With Nature's Children: Emma*

*B. Freeman (1880-1928): Camera and Brush (1977)*. The final series consists of the records of Women in Photography International, a nonprofit organization founded in 1981 to serve women photographers, photographic educators, photography students and gallery owners.

## Collection Contents

### Series I: Biographical Materials, 1971-2003

(219 boxes)

This series consists principally of biographical files and volumes that document over thirty thousand women involved with photography from circa 1840 to 2003. Palmquist and his assistants compiled much of the material from secondary sources between 1971 and 2003. Biographical material for many of the women photographers in the late twentieth century derived from materials collected by the Women in Photography International organization in the course of developing exhibitions.

This series also includes bound volumes containing information about women photographers in general and a small group of correspondence between Palmquist and his assistants with scholars about women involved in photography.

This series is organized into five subseries: Biographical Files, Biographical Volumes, Volumes About Women Photographers in General, Publicity about Exhibitions and Lectures, and Correspondence.

Biographical Files (94 boxes)	1971-2003
----------------------------------	-----------

The contents of individual biographical files range from solely providing the name of a woman to more comprehensive information, such as her life and work dates and her working locations, as well as professional or personal acquaintances.

The files provide particularly strong documentation for women photographers in California and the North American West, but also include information on photographers from around the world.

This subseries is organized alphabetically by personal or corporate name. Women with no identifiable surname are arranged alphabetically by their first name at the end of the subseries.

The files are housed in the original letter-size folders used by Palmquist, occasionally supplemented by folders provided by the processing archivists where no folder previously existed or the original folder had deteriorated beyond repair.

Oversize items are housed in Series II within the subseries, Oversize Photographic and Biographical Materials.

This portion of the finding aid provides ranges of boxes holding hundreds of individual biographical files. Researchers may consult a database <https://libapp.library.yale.edu/Palmquist> that provides individual name access to women represented in this subseries, as well as any available information regarding their aliases, working locations, life dates, and work dates.

Biographical Volumes  
(44 volumes)

This subseries consists primarily of biographical materials compiled by Palmquist and then bound by him into volumes. It also includes volumes, primarily of theses and dissertations, created by other authors.

The content of the volumes mirrors the material in the biographical files and also includes a small group of correspondence with researchers and historians of photography.

Dates attributed to compiled materials in this subseries reflect dates of compilation rather than the dates covered by the material in the particular volume.

This subseries is arranged alphabetically by the surname or corporate name of the photographer or photographic studio and therein by the author or compiler of the material.

**Series II: Photographic Materials, 1971-2003***(222 boxes)*

This series consists of photographic materials collected by Palmquist that were created by or document individual women photographers. It consists of vintage photographic prints created by photographers, as well as a significant quantity of copy photographs created by Palmquist of vintage photographic prints. The series documents the breadth of work by women photographers from the middle of the nineteenth century to the late twentieth century. Works by a photographer may appear in multiple subseries.

For most of the listed photographers, the collection has only a few photographs. However, there are significant quantities of photographs by Laura Adams Armer, Betty Nettis Bennett, Penny Brogden, Juliette C. Cropley, Emma B. Freeman, Grace Chandler Horn, Charlotte D. Mansfield, Mary Stella Mowbray, Eugenia Henrietta Polos, and Marion Van Ronk.

The subseries, Photographs of Women, in Series III, also contains photographic materials, although mostly by male photographers depicting women. Original photographs by women photographers also appear in Series IV, Women in Photography International Records.

Specific dates of materials or image creation dates were not captured during processing.

Each individual with photographic materials in this series has a a biographical file in Series I.

Series II is organized into five subseries: Photographic Materials; Photograph Albums; Cased Photographs and Fragile Photographic Materials; Audiovisual Materials; and Oversize Photographic and Biographical Materials.

Photographic Materials  
*(117 boxes)*

This subseries consists of vintage photographic prints, copy photographs, 35mm color slides, photographic negatives, associated publications, and ephemera. Photographic materials with dimensions larger than 22 x 29 cm (8.7 x 11.4 in.) are located in the Oversize Photographic and Biographical Materials subseries.

This subseries is arranged alphabetically by the surname of the photographer or the corporate name of the studio.

## Series III: Publication and Exhibition Research Files

(20 boxes)

This series consists of research files compiled by Palmquist for publication or exhibition projects about women in photography. Except for the research files related to his book, *With Nature's Children: Emma B. Freeman (1880-1928): Camera and Brush* (1977), the projects were unrealized or under development when he died.

This series has six subseries that represent publication or exhibition projects about women photographers completed or planned by Palmquist and his assistants. The subseries are organized chronologically according to their compilation dates. Subseries include: Research Files on Emma B. Freeman (1880-1928); Alice to Zaida: Women Photographers from the *American Annual of Photography*; Playing the Part: Depictions of Women Photographers; Directory of the Pioneer Women Photographers of the World; Anonymous Early Women Photographers; and Photographs of Women.

## Series IV: Women in Photography International Records, 1980-2003

(14 boxes)

This series documents the activities of the Women in Photography International, including its membership, publications, and activities.

Much of the biographical and photographic materials collected by the organization in the course of developing exhibitions were placed by Palmquist and his assistants in the corresponding biographical and photographic components of the Peter Palmquist Collection of Women in Photography.

This series is organized into two subseries: Records and Event Materials.

### Records

This subseries consists mainly of the records of Women in Photography International, including volumes of records bound by Palmquist, a small group of loose records, and publications of the organization, including a printout of its web site.

This subseries is organized by format with volumes and loose records followed by publications.

## Printed material

- Distinguished photographer books 1975-2017  
Books were arranged alphabetically by the photographer whose work the  
volume featured or described, if ascertained, and, when unsure, by the  
title. Many of these volumes are inscribed to Jean Ferro (WIPI President,  
2000-2016), for inclusion in WIPI archives. Any enclosed correspondence  
was foldered and placed behind the volume from which it was removed.
