## Scope and Contents

In 1979 an effort was made to microfilm women-related collections and items in the Western Americana collection. Six microfilm sets were created: Frontier Women, Frontier Women II, Frontier Women III, Women in California, Women in California II, and Mormon Women. A finding aid was created for the film and was included on each reel.

At the time that the materials were filmed, some items were cataloged but many others were not. Since that time, most of the material has been cataloged. A new guide was needed to reflect the cataloged status of the items on the film.

The following list is meant to serve as a guide to placement of items on the microfilm reels. The catalog number, main entry, title, and date information is given for each item or collection. For the full bibliographical descriptions of materials cited in this list, the researcher should consult the main catalog record.

Several of the items filmed are part of larger collections, some of which have not been filmed in their entirety. In such cases, a note gives the name of the collection in which the item[s] will be found and the catalog number of the larger collection.
