**CALL NUMBER:** Ms Coll 71

**CREATOR:** Genel, Myron, 1936-

**TITLE:** Myron Genel papers

**DATES:** 1968–2023

**PHYSICAL DESCRIPTION:** 37.5 linear feet (86 boxes)

**LANGUAGE:** English

**SUMMARY:** Myron Genel, M.D. (1936-) is a professor emeritus of pediatrics at the Yale School of Medicine. During his career at Yale, he was chief of the section of pediatric endocrinology, program director of the Children's Clinical Research Center, and Associate Dean, Government and Community Affairs. The collection documents Dr. Genel's work with organizations and government committees on a variety of topics including public health policies for pediatric medicine, fetal tissue research, gender identification in athletics, genetic screening, organ donation, and graduate medical education. Materials also include correspondence and presentations.

## Administrative Information

---

### Immediate Source of Acquisition

Transferred from Myron Genel, 2017-2023.

---

## Conditions Governing Access

Materials containing patients' medical information are restricted.

---

## Conditions Governing Use

Copyright status for collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

---

## Preferred Citation

Myron Genel papers. Historical Library, Harvey Cushing/John Hay Whitney Medical Library, Yale University.

---

## Related Materials

*Myron Genel, Associate Dean, School of Medicine, Yale University, records* (RU 1131), University Archives, Yale University Library.

---

## Separated Materials

Materials documenting Myron Genel's work as Associate Dean of the Yale School of Medicine have been transferred to Manuscripts and Archives, Yale University Library.

---

## Biographical / Historical

Myron Genel, M.D. (1936-) joined the Yale Medical School faculty in September 1971. He was Associate Dean of Government and Community Affairs at the Yale School of Medicine from 1985-2004. Previously he was chief of the pediatric endocrinology section and program director of the Children's Clinical Research Center. Dr. Genel's areas of professional interest include biomedical research, clinical endocrinology, and public policy. He was a member of the National Children's Study Federal Advisory Committee from 2005-2008, the HHS Secretary's Advisory Committee on Human Research Protections (SACHRP) from 2006-2009, and a charter member of the National Institute of Medicine's Clinical Research Roundtable, which met from 2000-2004. In 2005 he helped found the Connecticut Stem Cell Coalition and began serving on Connecticut's Stem Cell Research Advisory Committee. Dr. Genel has also been a consultant to the International Olympic Committee's Medical Commission on issues relating to gender identity in elite athletic competition.

Dr. Genel was elected to the Connecticut Academy of Science and Engineering (CASE) in 1992, has been a member of its executive council since 2000, and was the Academy's president from 2008-2010. He began directing the public affairs activities of three major pediatric academic and research societies in 1984: the American Pediatric Society (APS), the Association of American Medical School Pediatric Department Chairs (AMSPDC), and the Society for Pediatric Research (SPR). Dr. Genel was a member of the AMA Council on Scientific Affairs for seven years, serving as its chair in 1999-2000, and of the governing council of the AMA Section on Medical Schools for ten years, serving as the section's chair from 2003-2004. He is a Distinguished Service member of the Association of American Medical Colleges (AAMC) and was chair of the AAMC's Council of Academic Societies in 1990-91. Dr. Genel was awarded the Abraham Jacobi Memorial Award from the AMA and the American Academy of Pediatrics (AAP) in 1999, the Distinguished Service Award from the Society for Pediatric Research in 2003, the Joseph W. St. Geme, Jr. Leadership

Award from the Federation of Pediatric Organizations in 2004, and the President's Award for Distinguished Service from the American Academy of Pediatrics in 2010.

For more biographical information about Genel, Series XVI. Subject files, 1976-2017, includes a transcript of an oral history created by Genel in 2023: "Genel, Myron, Storyworth recollection transcript."

---

## Scope and Contents

The collection consists of files created by Myron Genel in the course of his work with national and international organizations and United States government committees. Topics of his work include public health policies for pediatric medicine, fetal tissue research, gender identification in athletics, genetic screening, organ donation, and graduate medical education. Materials also include correspondence and presentations.

Materials in the collection document Dr. Genel's work with the American Medical Association (AMA) Section on Graduate Medical Education and AMA Council on Scientific Affairs; Connecticut Stem Cell Coalition; Connecticut United for Research Excellence (CURE); Health and Human Services (HHS) Secretary's Advisory Committee on Human Research Protections; Institute of Medicine (IOM) Clinical Research Roundtable; International Olympic Committee (IOC); National Institute of Health (NIH); and the Pediatric Public Policy Council (PPC).

Series I. Correspondence, 1076-2017, includes posted and some printed out email correspondence received or written by Myron Genel. Files are arranged by date, with a few also organized by topic, as Genel organized them.

Series II. Writings, speeches, and presentations, 1979-2016, includes materials related to writings, speeches, and presentations created by Myron Genel. Files include writings, presentation texts and overhead projector slides, reference materials, correspondence, and event planning records. Additional writings, speeches, and presentations related to specific topics or organizations may be found in Series IV.-XV.

Series III. American Association for Medical Colleges, Ad Hoc Group for Medical Research Funding, 1990-2001. The series documents Genel's work for the AAMC Ad Hoc Group, a coalition of patient and voluntary health groups, medical and scientific societies, academic and research organizations, and industry that supports enhancing federal funding for research conducted and supported by the National Institutes of Health. Genel participated in the group as a member of the AAMC. See Series VII. Clinical Research, 1973-2016 for related materials.

Series IV. American Medical Association, 1985-2018. Materials in the series document Dr. Genel's membership in the AMA; his service as a member and chair of the AMA Council on Scientific Affairs, which addresses a variety of topics including clinical research; his service as a member and chair of the governing council of the AMA Section on Medical Schools; and his campaigns for election to the AMA board of trustees. Materials include documentation of meetings and events, press releases, presentations, reprints, and ephemera. For additional materials related to medical education see Series III. American Association for Medical Colleges, Ad Hoc Group for Medical Research Funding, 1990-2001; Series V. Association of Medical School Pediatric Department Chairs, 1971-2016; and Series VII. Clinical research, 1973-2016.

Series V. Association of Medical School Pediatric Department Chairs, 1971-2016. The series documents Genel's activities as a member of the AMSPDC, an organization dedicated to the promotion of excellence in medical education. The bulk of the series consists of materials related to the activities of the Public Policy Council, the advocacy section of the AMSPDC which advocates for legislation related to and funding to support pediatric medical education, research, and medical care. Public Policy Council materials include correspondence, conference calls, congressional testimony, events, reports, topic files and the PPC Notebook. The series also includes materials related to the Society for Pediatric Research, the American Pediatric Society, the Pediatric Academic Societies, and other pediatric organizations whose work intersects with the work of the AMSPDC and/or the Public Policy Council. These materials include committee documentation, presentations, correspondence, events, and symposiums. Materials in this series include topics related to multiple other series in the collection.

Series VI. Bioethics, 1984–2016. Materials in the series document Genel's interest in or work on the topics of animal research, cloning, pediatric/human clinical research ethics and protections, and stem cell research. Materials include documentation of Genel's work as founder of the Connecticut Stem Cell Coalition and service on Connecticut's Stem Cell Research Advisory Committee. The series also includes materials related to Representative Henry A. Waxman's (D-Calif.) House Energy and Commerce subcommittee on health and the environment hearings regarding the Bush administration's ban on use of fetal tissue in medical research. For additional materials related to clinical research guidelines, see Series VII. Clinical research, 1973–2016.

Series VII. Clinical research, 1973–2016. Materials in the series document Genel's engagement with multiple organizations and initiatives working to improve the efficacy, support funding for, and expand engagement with clinical research. Materials document Genel's work as a charter member of the National Institute of Medicine's Clinical Research Roundtable, a group of 28 individuals from government, commercial, academic, and non-profit institutions. The series also documents the American Association of Medical Colleges Clinical Research Summit and the resulting Galyn Report, which called for the creation of "a national mechanism, such as a 'Clinical Research Roundtable' to identify needs, establish priorities, and monitor progress in clinical research." The series also includes Genel's writings, correspondence, and presentations on the topic of clinical research; materials from conferences, summits, meetings, and workshops for the National Institutes of Health, the AMA, and other organizations; and subject files on topics related to clinical research.

Series VIII. Children's museums, 2000–2017. The series documents Genel's work with the Stepping Stones Museum for Children in Norwalk, Connecticut on their Healthy Children, Healthy Communities initiative and the "Healthyville" exhibit.

Series IX. Endocrinology, 1968–2017. The series documents Genel's activities related specifically to his work as an endocrinologist. Materials include papers related to professional organizations, reprints of articles related to endocrinological disorders and treatments, and materials documenting Genel's research and writings on hypothyroidism, medullary thyroid cancer, and multiple endocrine neoplasia. Materials containing personally identifiable medical information are restricted and housed separately.

Series X. Gender determination and transsexualism, 1976–2019. The series documents Genel's work related to gender determination, disorders of sex development, and transsexualism. The bulk of materials in the series is related to gender determination of athletes and Genel's work with athletics organizations including the International Association of Athletics Federations and the International Olympic Committee to establish gender determination guidelines and testing for athletic competition. The series also includes correspondence, news clippings, reports, writings, and presentations.

Series XI. Genetic screening of newborn infants, 1996–2019. The series documents Genel's work related to genetic screening of newborn infants to identify endocrinological disorders and related legislation.

Series XII. Human growth hormone, 1973–2005. The series documents Genel's work related to the use and abuse of human growth hormone in children. Materials include writings, clippings, correspondence, and materials from several organizations. Materials containing personally identifiable patient medical information are restricted and housed separately.

Series XIII. Organ transplants, 1980–2011. The series documents Genel's work related to organ donation and transplantation. Materials include writings, clippings, conference materials, correspondence, legislation, and policy documents. Materials from 1983 are related to Genel's work as a Robert Wood Johnson Foundation fellow, for more materials see Series XIV. Robert Wood Johnson Foundation, 1979–2012. Additional materials related to organ donation and transplants policy may be found in Series V. Association of Medical School Pediatric Department Chairs, 1971–2016, Public Policy Council files.

Series XIV. Robert Wood Johnson Foundation, 1979–2012. Materials in the series document Genel's activities as a Robert Wood Johnson Foundation Health Policy fellow and later involvement with the foundation. For additional materials see Series XIII. Organ transplants and files related to Al Gore in Series VII. Clinical research, 1973–2016, and Series XVI. Subject files, 1976–2017.

Series XV. Yale, 1985-2019. The series includes materials from Genel's involvement with outreach activities and events at the Yale School of Medicine.

Series XVI. Subject files, 1976-2017. Materials in the series document Genel's work on a variety of topics, involvement with numerous organizations, and his career. The series includes a transcript of an oral history created by Genel in 2023: "Genel, Myron, Storyworth recollection transcript."

---

## Arrangement

The collection is arranged in 16 series: Series I. Correspondence, 1976-2017. Series II. Writings, speeches, and presentations, 1979-2016. Series III. American Association for Medical Colleges, Ad Hoc Group for Medical Research Funding, 1990-2001. Series IV. American Medical Association, 1985-2018. Series V. Association of Medical School Pediatric Department Chairs, 1971-2016. Series VI. Bioethics, 1984-2016. Series VII. Clinical research, 1973-2016. Series VIII. Children's museums, 2000-2017. Series IX. Endocrinology, 1968-2017. Series X. Gender determination and transsexualism, 1976-2019. Series XI. Genetic screening of newborn infants, 1996-2019. Series XII. Human growth hormone, 1973-2005. Series XIII. Organ transplants, 1980-2011. Series XIV. Robert Wood Johnson Foundation, 1979-2012. Series XV. Yale, 1985-2019. Series XVI. Subject files, 1976-2017.

---

## Collection Contents

### Series I: Correspondence, 1976–2017

The series includes posted and some printed out email correspondence received or written by Myron Genel. Files are arranged by date, with a few also organized by topic, as Genel organized them.

b. 1, f. 1	White house correspondence, etc. letters to editor	1976–2017
b. 1, f. 2	Miscellaneous correspondence	1984–2016
b. 1, f. 3	Correspondence, etc.	1991–1996
b. 1, f. 4	Correspondence 1991-2003	1991–2003
b. 1, f. 5--7	January 1992 - March 1992	1992
b. 1, f. 8	Correspondence April 1992	1992
b. 1, f. 9	Correspondence May 1992	1992
b. 2, f. 1b. 1, f. 10	Correspondence June 1992	1992

b. 7, f. 1	Correspondence 2000-2010	2000-2010
b. 7, f. 2	Correspondence 2003- 2010	2003-2010
b. 7, f. 3	Email correspondence 2003-2004	2003-2004
b. 7, f. 4	Correspondence, addresses	2005
b. 7, f. 5	Correspondence 2006-2016	2006-2016
b. 7, f. 6--7	Correspondence Dean's Office 1989-1995	1989-1995
b. 8, f. 1--2	Veteran's Affairs Medical Center - fiscal year 95 correspondence	1986-1995
b. 8, f. 3	Holiday cards	1989-1991

**Series II: Writings, speeches, and presentations, 1979–2016**

The series includes materials related to writings, speeches, and presentations created by Myron Genel. Files include writings, presentation texts and overhead projector slides, reference materials, correspondence, and event planning records. Additional writings, speeches, and presentations related to specific topics or organizations may be found in Series IV.-XV.

b. 8, f. 4	Abstracts	1979–1981
b. 8, f. 5	American Medical Association Leadership Conference, March 4, 2001	1999–2001
b. 8, f. 6--7	"Can academic medicine remain academic?" Simon lecture, Wake Forest	2001–2016
b. 8, f. 8	"Can academic medicine survive" Slifka Center, March 21, 2001	2001
b. 8, f. 9	<i>Connecticut Medicine</i> commentary	2008
b. 8, f. 10	<i>Connecticut Medicine</i> : "retirement"	2015
b. 9, f. 1	Council of Academic Societies Plenary Session, October 29, 1989	1989
b. 9, f. 2	Eastern Society for Pediatric Research address "Healthcare in transition: who speaks for children?"	1991–1997
b. 9, f. 3	Genel, Myron, and Sarah Carr, "Politics of abortion stifle promising areas of research," <i>Bulletin of the Park Ridge Center</i> , May 1990.	1990
b. 9, f. 4	Myron Genel reprints	1976–2002
b. 9, f. 5	IRB presentations/overheads	undated
b. 9, f. 6	Insomnia paper: Pediatrics final	2006
b. 9, f. 7	Institute of Medicine Board on Health Sciences Policy, June 4-5, 2003	2003
b. 9, f. 8	Jacobi Address	1999–2000
b. 9, f. 9	Jacobi Address award overheads	1999
b. 9, f. 10	Jacobi Award presentation and letters	1999
b. 10, f. 1	Jacobi Address references	1999
b. 10, f. 2	Abraham Jacobi Award, American Association for the Advancement of Science Fellowship	1998–1999
b. 10, f. 3	Medical Society of the State of New York, Roslyn Clairmont Hotel, Roslyn, New York	2000
b. 10, f. 4	Moravian College Symposium	2001
b. 10, f. 5	<i>New York Times</i> letters	2002
b. 10, f. 6	Howard Allen Pearson eulogy, November 2, 2016	2016
b. 10, f. 7	Plan for managing costs of biomedical research	1990–1995

## Series V: Association of Medical School Pediatric Department Chairs, 1971–2016

The series documents Genel's activities as a member of the AMSPDC, an organization dedicated to the promotion of excellence in medical education. The bulk of the series consists of materials related to the activities of the Public Policy Council, the advocacy section of the AMSPDC which advocates for legislation related to and funding to support pediatric medical education, research, and medical care. Public Policy Council materials include correspondence, conference calls, congressional testimony, events, reports, topic files and the PPC Notebook. The series also includes materials related to the Society for Pediatric Research, the American Pediatric Society, the Pediatric Academic Societies, and other pediatric organizations whose work intersects with the work of the AMSPDC and/or the Public Policy Council. These materials include committee documentation, presentations, correspondence, events, and symposiums. Materials in this series include topics related to multiple other series in the collection.

### Public Policy Council

**Series VI: Bioethics, 1984–2016**

Materials in the series document Genel's interest in or work on the topics of animal research, cloning, pediatric/human clinical research ethics and protections, and stem cell research. Materials include documentation of Genel's work as founder of the Connecticut Stem Cell Coalition and service on Connecticut's Stem Cell Research Advisory Committee. The series also includes materials related to Representative Henry A. Waxman's (D-Calif.) House Energy and Commerce subcommittee on health and the environment hearings regarding the Bush administration's ban on use of fetal tissue in medical research. For additional materials related to clinical research guidelines, see Series VII. Clinical research, 1973–2016.

**Series VII: Clinical research, 1973–2016**

Materials in the series document Genel's engagement with multiple organizations and initiatives working to improve the efficacy, support funding for, and expand engagement with clinical research. Materials document Genel's work as a charter member of the National Institute of Medicine's Clinical Research Roundtable, a group of 28 individuals from government, commercial, academic, and non-profit institutions. The series also documents the American Association of Medical Colleges Clinical Research Summit and the resulting Galyn Report, which called for the creation of "a national mechanism, such as a 'Clinical Research Roundtable' to identify needs, establish priorities, and monitor progress in clinical research." The series also includes Genel's writings, correspondence, and presentations on the topic of clinical research; materials from conferences, summits, meetings, and workshops for the National Institutes of Health, the AMA, and other organizations; and subject files on topics related to clinical research.

**Series IX: Endocrinology, 1968–2017**

The series documents Genel's activities related specifically to his work as an endocrinologist. Materials include papers related to professional organizations, reprints of articles related to endocrinological disorders and treatments, and materials documenting Genel's research and writings on hypothyroidism, medullary thyroid cancer, and multiple endocrine neoplasia. Materials containing personally identifiable medical information are restricted and housed separately.

Materials containing patients' medical information is restricted.
