Administrative Information

Conditions Governing Access

The collection is open for research.

Conditions Governing Use

Copyright status for other collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

Preferred Citation

Pamphlets on venereal disease. Historical Library, Harvey Cushing / John Hay Whitney Medical Library, Yale University.

Scope and Contents

The collection includes printed materials on venereal disease issued by the United States Public Health Service and other government agencies, the New York State Bureau of Health, and other organizations in the United States and Europe from 1910-1961. Topics include facts about syphilis and gonorrhea, treatment of sexually transmitted diseases, rates of infection, and blood tests before marriage to prevent transmission of sexually transmitted diseases to children.

Arrangement

Organized in four series: Series I. United States Public Health Service and other government agencies, 1915-1961. Series II. New York Department of Health, Bureau of Social Hygiene, 1933-1940, undated. Series III. United States, other sources, 1910-1943, undated. Series IV. Other countries, 1915-1940, undated.
