Processing Information

Collections are processed to a variety of levels, depending on the work necessary to make them usable, their perceived research value, the availability of staff, competing priorities, and whether or not further accruals are expected. The library attempts to provide a basic level of preservation and access for all collections, and does more extensive processing of higher priority collections as time and resources permit.

As a rule, descriptive information found in the Collection Contents section is drawn in large part from information supplied with the collection and from an initial survey of the contents. Folder titles appearing in the contents list below are often based on those provided by the creator or previous custodian. Titles have not been verified against the contents of the folders in all cases. Otherwise, folder titles are supplied by staff during initial processing.

This finding aid may be updated periodically to account for new acquisitions to the collection and/or revisions in arrangement and description.

Much of the collection remains in Palmquist's original folders and represent his original order for the material.

Former call numbers: Uncat Mss 128 and Uncat Mss 509

This finding aid was revised in 2023 to add this processing note to contextualize a racist and sexist descriptor used in a folder title in the Modoc War Sub-Series of Series VII: Oversize Material, 1851-2002. This folder title contains a transcribed title of an engraving featured in a newspaper article. The use of this title is not an endorsement of the language it contains. This descriptive language has been retained to promote searchability and discoverability of the collections. Previous versions of this finding aid may be available. Please contact Beinecke Library for details or if you have questions or comments about these revisions. For more information on reparative archival description at Yale, see [Yale's Statement on Harmful Language in Archival Description](#).

Peter E. Palmquist (1936-2003)

A photographer, collector, and historian of photography, Peter Eric Palmquist was born in Oakland, California on September 23, 1936. In 1944, he moved with his family to Ferndale, California, and he spent most of his life in Humboldt County. During adolescence, Palmquist trained himself in photography. He served in the United States Army as a photographer from 1955 to 1959, mainly with the Supreme Headquarters Allied Powers Europe in Paris, France. Palmquist worked briefly as a photographer for the state government of California from 1959 to 1961. From 1961 until his retirement in 1989, Palmquist worked as a staff photographer for Humboldt State University, Arcata, California, where he also graduated with a Bachelor of Arts degree in Art in 1965.

From 1971 until his death, Palmquist collected textual materials and hundreds of thousands of photographic items documenting the practice and occupation of photography from its beginning through the turn of the twenty-first century. He had particular interest in early California photographers, photographers of the American West, and women photographers.

A self-trained researcher and historian of photography, Palmquist organized more than one hundred exhibitions and wrote more than three hundred articles and a hundred monographs. He was a founding editor of *The Daguerreian Annual*, and a president of the National Stereoscopic Association.

Palmquist died January 13, 2003, in Oakland.

Scope and Contents

Papers and related material documenting Peter Palmquist's roles as a collector and historian of photography, as well as a photographer, 1952-2003. Material includes correspondence, writings, research files, printed material, photographs, audiovisual material, and electronic files.

The collection, which reflects the order of Palmquist's papers at the time of his death, includes research files on a range of subjects containing material from circa 1848 to 2003, with a focus on photography, especially its role in the history of the American West, particularly in California. The research files also provide rich documentation for the history of Humboldt County, California, the birthplace and primary residence of Palmquist. In most of the research files, the order of the materials reflects the original filing order used by Palmquist.

Correspondence documents the working relationships between Palmquist and auction houses, filmmakers, gallery owners, geographers, historians, historical societies, libraries, museums, photographers, and publishers related chiefly to the history of photography.

The papers include examples of academic articles and photographs published by Palmquist, as well as research files and drafts related to his publications and projects, including unrealized efforts. Exhibition material includes preparatory and publicity material, as well as documentation of shows that Palmquist designed or participated in.

Arrangement

Organized into nine series: I. Correspondence, 1970-2003. II. Publications and Publicity, 1960-2003. III. Material for Publications and Exhibitions, 1901-2003. IV. General Research Files, 1822-2002. V. Collection Inventories, 1985-1994. Series VI. Business Records, 1962-1964. VII. Oversize Material, 1851-2002. VIII. Audiovisual Material, 1964-2003. IX. Electronic Files, 1982-2003.

Collection Contents

Series IV: General Research Files, 1822-2002

31.4 linear feet (75 boxes)

Research files maintained by Palmquist for subjects he published articles and books about and organized exhibitions and delivered presentations. The files relate primarily to photographers and photography, but also to the histories of Humboldt County, California, and the American West. The subseries also includes card files, collected microfilm, and material that formerly laid in books from his library.

Organized in thirteen subseries: Carleton E. Watkins, Humboldt County, California, American West, Photographers, Photography by Function, Photography by Technique, Collected Historical Material, Mixed Research Files, Card Files, Research Material on Microfilm, Material Removed from Books, and Collection Inventories.

Carleton Watkins Research

Extensive research files related to Carleton E. Watkins (1829-1916), a photographer in nineteenth century California known for his landscape views, especially images of the Yosemite Valley in the 1860s, and architectural photography, as well as occasional portraits.

The research files remain in the original order as received by the library. During baseline processing, library staff identified discrete components. Duplicate and disparate material exists throughout the files.

Organized under fifteen headings: *Carleton E. Watkins: Photographer of the American West* and Watkins in the 1850s; Watkins Book on Mammoth Photographs; Watkins in the 1860s and Illustrated Government Reports; Watkins in the 1860s and 1870s Watkins in the 1870s and Exhibitions; Watkins in Montana, Oregon, and Yellowstone National Park, 1884-1885; Watkins in the 1880s-1890s; Mammoth Photographs by Watkins; Stereographs and Landscapes by Watkins; Printed and Institutional Research; Research at the Getty Research Institute; Publications and Research about Watkins; Photocopies of Watkins Photographs; Watkins Writings and Testimony; and Watkins Related Material.

Carleton E. Watkins: Photographer of the American West and Watkins in the 1850s

Material primarily related to Palmquist, Peter E., *Carleton E. Watkins: Photographer of the American West* (Albuquerque: University of New Mexico Press, 1983.), and Watkins's early life in Oneonta, New York, and in California during the 1850s, as well as the glass stereograph technique used by Watkins.

Organized by Palmquist into three groups: Drafts and Research, Watkins in the 1850s, and Documentation about Glass Stereographs.

Panoramic Paintings and Panoramas

Research material related to painted panoramas. Popular in the middle of the nineteenth century, panoramic paintings and models became a popular way to represent landscapes and historical events. The painted panoramas influenced the development of photography, in particular the creation of photographic panoramas that show a wide view produced by a panoramic camera or by joining photographs together.
