Administrative Information

Immediate Source of Acquisition

Collection was created by Medical Historical Library staff from materials of unknown provenance and gifts of Bert Hansen, 2020 and 2021.

Conditions Governing Access

The collection is open for research.

Conditions Governing Use

Copyright status for collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

Preferred Citation

Tuberculosis pamphlets and ephemera. Historical Library, Harvey Cushing / John Hay Whitney Medical Library, Yale University.

Scope and Contents

The collection includes pamphlets and ephemera regarding tuberculosis infection, treatment, and prevention in the United States and other countries. Materials in the collection were produced by United States federal and state agencies; international government agencies; domestic and international non-governmental organizations; conferences; and scholars of medicine, public health, and epidemiology.

Arrangement

The collection is arranged in 5 series: Series I: United States, 1887-1963, undated. Series II: International, 1903-1964, undated. Series III: International conferences, 1906-1922. Series IV: Theses and dissertations, 1879-1936. Series V: Ephemera, 1902-1951, undated.

Collection Contents

Series I: United States, 1887-1963, undated

Government agencies

b. 1, f. 1	Federal Security Agency, Public Health Service, <i>Tuberculosis</i> . Health Information Series No. 33. Washington, D.C.: U.S. Government Printing Office, 1950.	1950
