Administrative Information

Immediate Source of Acquisition

This collection was built by the library by gift and purchase from various sources. These include a core group of prints collected by William A. Speck and brought to Yale when he accepted the position of curator of the Yale Collection of German Literature; items purchased for the collection with Yale funds by Speck, including approximately 3750 prints from the Berg Collection, or received as gifts during his tenure; and materials acquired since by the library, by gift or purchase.

Conditions Governing Access

The materials are open for research.

Conditions Governing Use

The William A. Speck Collection of Prints is the physical property of the Beinecke Rare Book and Manuscript Library, Yale University. Literary rights, including copyright, belong to the authors or their legal heirs and assigns. For further information, consult the appropriate curator.

Preferred Citation

William A. Speck Collection of Prints. Yale Collection of German Literature, Beinecke Rare Book and Manuscript Library.

Processing Information

Collections are processed to a variety of levels, depending on the work necessary to make them usable, their perceived research value, the availability of staff, competing priorities, and whether or not further accruals are expected. The library attempts to provide a basic level of preservation and access for all collections [as they are acquired], and does more extensive processing of higher priority collections as time and resources permit.

The list in this finding aid was created by transcribing the titles on the folders. A partial card index was also consulted.

This finding aid may be updated periodically to account for new acquisitions to the collection and/or revisions in arrangement and description.

Scope and Contents

The William A. Speck Collection of Prints contains portraits, views and illustrations documenting the life, work, and reception of Johann Wolfgang von Goethe. The collection is housed in 42 boxes, plus numerous broadside folders, and consists of three series: *Portraits*, *Views*, and *Illustrations*. While most of the collection is composed of prints, other formats may also be found, including watercolors, silhouettes, printed ephemera, and a few photographs.

[Series I, Portraits](#) is arranged alphabetically by name. [Series II, Views](#) is arranged by country, and within that by city. It should be noted that the place names in Series II are those that were in use in the 1920s and 30s, when most of the collection was cataloged, and therefore may not reflect current usage or political divisions.

The *Portraits* series includes portraits of Goethe and of his associates, but also includes many contemporaries not closely associated with the poet. The *Views* and *Illustrations* focus more narrowly on Goethe himself, his life and work, depicting places where Goethe lived or visited, or which he discussed in his works, particularly Weimar, and scenes and characters from Goethe's works, in particular *Faust*.

In addition to this listing, which was compiled by labeling on the files, a card index exists, which provides access by artist name to many, though probably not all, works encompassed in this collection. These cards also may contain additional information, including such things as names of engraver, place of creation, date of creation, and bibliographic citations. For further information about the card index, consult the appropriate curator.
