Administrative Information

Immediate Source of Acquisition

Transferred from the Yale University Historical Medical Library, 1980.

Conditions Governing Access

The materials are open for research.

Conditions Governing Use

Copyright status for collection materials is unknown. Transmission or reproduction of materials protected by U.S. Copyright Law (Title 17, U.S.C.) beyond that allowed by fair use requires the written permission of the copyright owners. Works not in the public domain cannot be commercially exploited without permission of the copyright owners. Responsibility for any use rests exclusively with the user.

Preferred Citation

Arthur Meyer Yudkin Papers (MS 1342). Manuscripts and Archives, Yale University Library.

Processing Information

Collections are processed to a variety of levels, depending on the work necessary to make them usable, their perceived research value, the availability of staff, competing priorities, and whether or not further accruals are expected. The library attempts to provide a basic level of preservation and access for all collections, and does more extensive processing of higher priority collections as time and resources permit.

These materials have been arranged and described according to national and local standards. For more information, please refer to the Beinecke Manuscript Unit Processing Manual.

This finding aid was revised in 2023.

Arthur Meyer Yudkin (1892-1957)

Arthur Meyer Yudkin was born on December 31, 1892, in Ansonia, Connecticut. He graduated from Yale Sheffield Scientific School in 1914 and Yale School of Medicine in 1917. In 1925, he was hired onto the faculty of Yale School of Medicine. A specialist in ophthalmology, he was a president and founder of the New York Society for Clinical Ophthalmology. He died of a heart attack on May 2, 1957.

Scope and Contents

Professional papers of ophthalmologist Arthur Meyer Yudkin, which includes correspondence with physicians, professors, patients, and other individuals, 1917-1942, as well as papers relating to Yudkin's "Lemon Juice Discovery" in 1939, in which he offered vitamins as a therapeutic measure for the treatment and prevention of ocular diseases.

Correspondents include ophthalmologist Percy H. Fridenberg, ophthalmologist Joseph Igersheimer, biochemist Lafayette B. Mendel, ophthalmologist Mark J. Schoenberg, and diabetes specialist William C. Stadie, as well as the American Academy of Ophthalmology, Connecticut Board of Education for the Blind,

Connecticut School for the Blind (later known as Oak Hill School), and National Society for the Prevention of Blindness.

Arrangement

Arranged alphabetically by correspondent, followed by papers.
