## Collection Contents

### Inventory, 1984-1994

The papers consist of materials created and accumulated by Woodsum while serving on the National Audubon Society (NAS) Board of Directors. The inventory is comprised of one alphabetical listing that incorporates organizational files and subject files. Files documenting the activities of the NAS Board of Directors include correspondence, minutes of meetings, reports, and financial records. Woodsum's correspondence to and from other board members comprises a significant portion of the papers. Correspondence between Woodsum and NAS President Peter Berle is listed under Berle. One folder of personal correspondence is listed at the end of the correspondence files. The files pertaining to Woodsum's participation in the annual Birdathon comprise another significant portion of the organizational files. The Birdathon files include correspondence, pledges, and sponsor lists. Subject files on environmental and conservation issues are interfiled with the organizational files and consist primarily of printed material.

The original arrangement of the files was preserved where possible. Consequently, like materials, i.e. financial records, may be listed under separate headings. Cross-references have been created where appropriate
